

IGBC STUDENTS CHAPTER SCREENING

IGBC Students chapter Screening @ BRICK - IGBC Green Building Congress 2021

Co-ordinating Faculty: Ar. Divya Mallavarapu, Ar. Vinita Lulla

Session conducted : 17th November 2021

Today, the building sector is in the forefront of adopting and promoting green practices and technologies. This is going a long way in addressing ecological issues in a holistic manner. Stakeholders are warmly embracing sustainable building practices. Playing a catalytic role in spearheading the green building movement in the Country is IGBC, part of CII. There is growing evidence that green buildings not only conserve resources but will also enhance the quality of life of the occupants.

The spotlight is therefore shifting to people and their wellness. Indian Green Building Council is working with several stakeholders such as state & central governments, NGOs, bilateral, multilateral agencies including WorldGBC in this mission. Today, over 7.75 Billion sq.ft of green spaces in India are going the IGBC way. This has facilitated India become one of the top 3 Countries in the world in terms of largest registered green building footprint.

IGBC aspires to facilitate 10 Billion sq. ft of registered green building footprint by 2022 (75th year of Independent India). To further advance the green building movement in the country, **IGBC organised its 19th edition of Green Building Congress during 18, 19 & 20 November 2021 virtually on CII HIVE Digital Events Platform, India.**

Event Theme - 'Net Zero - Buildings and Built Environment'

SMEFs Brick School of Architecture organised a screening for the students on the first day (17th November 2021) of the students chapter of the Green building congress 2021. It was open to the alumni and current students in batches.
