# 01 OVERVIEW

The trial of STIP Project in Kharadi was conducted along Kharadi South Main Road between 14<sup>th</sup> December 2022 to 17<sup>th</sup> December 2022. The stretch of the road along PDEA EON Gyanankur School, PDEA Primary and Secondary English Medium School, T D Pathare Marathi Medium School and Late. Rajaram Bhiku Pathare (Patil) Primary School was selected for Implementation.

The objective of the trial was to test the on-ground workability of the proposed design. The trial consisted of marking dedicated cycle lane, marking of parking arrangements for school buses, school vans and parent drop off to avoid chaos at school gates. To calm the traffic near school entrances, zebra crossing, rumble strips were marked and a section of road was painted in vibrant colors. The alignment of Zensar Junction was rectified to minimize the speed of vehicles and a space at the corners of the junctions was reclaimed for play areas. Number of signages were placed for motorists to notice the school priority zone.

Along with the trial following activities were conducted on 14<sup>th</sup> December 2022

1. Cycle Rally of all the schools to create awareness about zero carbon emission
2. Road Safety Workshop for School Bus and School Van drivers
3. Road Safety Workshop for School Children
4. Painting activity by school children on Global Warming

The trial stretch was visited by PMC Road Department officials, NIUA officials and NMT Committee members.

The next phase is to assess the impact of the Tactical Urbanism trial based on the feedback received and on-ground learning.

## 02 GLIMPSES OF THE IMPLEMENTED STRETCH

## 03 ACTIVITIES CONDUCTED

### CYCLE RALLY

### ROAD SAFETY WORKSHOP FOR SCHOOL BUS and SCHOOL VAN DRIVERS BY WRI INDIA

Sub: Road Safety Plan for School Student.

Respected, Sir/ Madam,

In co-relation with the above subject, We would like to put forth that your road safety plan for our school students is like a precious stone in the crown.

Your programme has helped us to park our school Buses, Van and Auto – rickshaw at correct places using the markings given by PMC. We would also bring into light that this parking facility has helped our student to reach there transport point by making correct use of pavement.

We also are happy for the training session conducted for our Bus, Van and Rickshaw drivers by your department. Cycle rally has provided lot of inspiration for our students, parents and teachers.

Your efforts are really a mile stone in helping our students to cross road safely making use of the zebra crossing.

We have seen that the students are following the instruction given by you during the training session.

We have experienced that the parents, students, teachers and the drivers are making proper use of marking drawn on the road.

Doc No: Date:

We feel that the speed of vehicles can be reduced by increasing the number of speed breakers and roaders strips near the school.

We would like to state that road safety programme is very effective for us.

We thank PMC road department for implementing the trial project so effectively. We request you to implement the project permanently at the earliest.

Yours Faithfully,

**Subject: - Regarding the feedback of school travel improvement plan trial project.**

Respected Sir,

With reference to the above mentioned subject, 'School Travel Improvement Trial project' was implemented near the school on 14<sup>th</sup> to 16<sup>th</sup> December 2022. The pilot project was very effective to improve safety measures on the road for transportation of the school students.

We wish to implement the same programme for permanent provision for safe transportation of school children.

We thank the whole team for implementing the trial project to effectively and wish them to implement the same permanently at the earliest.

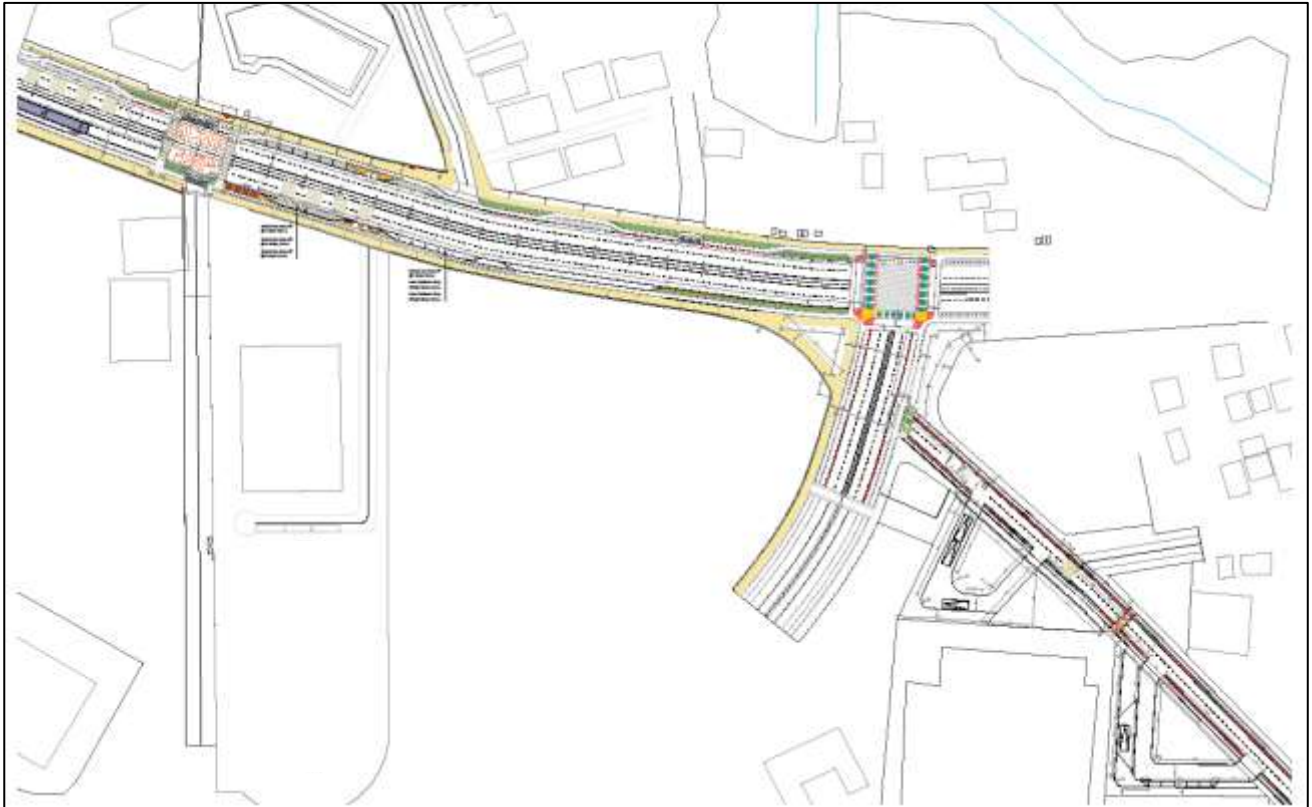

Thank you

Yours Faithfully  
 Mrs. Savita Rai  
 Principal  
 Eon Gyanankur English School  
 (CBSE), Khanda, Pune - 41
